FOREWORD

Pursuant to Article 183 of the Constitution and Section 166 of the Public Finance Management Act 2012, the County Executive Committee for Finance and Socio-Economic Planning is responsible for preparing and submitting timely quarterly reports. These reports are required to be submitted to the County Assembly and copies delivered to office of the Controller of Budget (OCOB), The National Treasury and State Department of Planning, and the Commission of Revenue Allocation (CRA) not later than one month after the end of the quarter. The quarterly reports should be published within the said period to improve on transparency and oversight of the County Governments and their entities. The report comprises of both financial and non- financial information which is crucial in evaluating the performance of government institutions. Financial information, such as expenditure and revenue, helps determine the cost and efficiency of programs,

objectives, and activities. Non-financial information is equally important as it assesses progress towards predetermined service delivery or performance targets.

This report presents the budget implementation performance of all departments for the first nine months of the Financial Year 2023/2024. It is based on an analysis of reports on financial and non-financial performance submitted to the County Treasury, financial reports generated from the Integrated Financial Management Information System (IFMIS), and financial information obtained from the National Treasury. The report also provides information on the status of programmes and projects during the specified period and highlights the key challenges faced by departments during budget implementation and appropriate recommendations. The information on budget implementation is presented both in aggregate and for individual departments. The report also includes performance trends, which are useful in determining the trajectory of revenue and expenditure performance.

**DAMARIS MUMO KAVOI COUNTY EXECUTIVE COMMITTEE MEMBER- FINANCE,
PLANNING, BUDGET & REVENUE AND HEAD OF THE COUNTY TREASURY**

1.0 INTRODUCTION

Pursuant to Public Finance Management Act, 2012 Section 166-(4a) the County Treasury is mandated to prepare and submit quarterly budget implementation reports to the County Assembly not later than one month after the end of each quarter. The FY 2023/24 Budget is implementing County development agenda as stipulated in the County Intergrated Development Plant (CIDP) 2023-2027 and the 2023/24 Annual Development Plan (ADP) and the 2024 County Fiscal Strategy Paper. The plans delineate several key objectives aimed at fostering comprehensive development. Among these objectives are the commitment to enhance universal water access, increase sustainable agriculture production, value addition, and market access for targeted value chains, improve urban and rural infrastructural development for socio-economic transformation, increase access to quality and affordable health services and promoting industrialization and enterprise development to stimulate investments and job creation.

Through these objectives, the ADP 2023/24 endeavors to propel the county towards holistic growth and resilience, aligning with the overarching goals of economic advancement and community well-being.

1.1 Key Highlights of the Overall Budget

This section presents the key highlights and milestones achieved during the first nine months of FY 2023/24. The highlights include budget trends from FY 2019/20 to FY 2023/24, the FY 2023/24 budget, receipts into the Makueni County Revenue Fund (CRF) for the first nine months of FY 2023/24, and exchequer issues from The National Treasury.

1.1.1. Budget Trends from FY 2019/20- 2023/24 Supplementary Budgets

The following graph presents the County development and recurrent budgets comparative analysis for FY 2019/20 to FY 2023/24 budget.

Figure 1: Budget Analysis in the FY2019/20 to FY2023/24 in Millions

The FY 2020/21 recorded the highest County allocation while FY 2022/23 had the lowest County allocation.

1.1.2. FY 2023/24 BUDGET

The total County budget for FY 2023/2024 is Kshs. 11,170,315,259, with Kshs. 3,554,481,901.60 allocated for development and 7,615,833,358 for recurrent expenses. The County has met the requirement of a 30 percent budget allocation to development programs and projects by achieving a 32 percent development budget. The personnel ratio for the financial year is 41 percent, which exceeds the required 35 percent according to the PFM Regulations, 2015.

The personnel emoluments increased by Kshs 179,454,147 from Kshs 4,429,060,726 in printed FY 2023/24 Budget estimates to Kshs 4,608,514,874 in Supplementary 1 Budget Estimates. The increase was due to review of ECDE staff salaries, absorption of libraries' staff, provision of housing funds, NHIF, and NSSF as per the new Finance Act. The County has implemented measures to enhance the mobilization of Own Source Revenues (OSR) and external resource mobilization. These measures aim to boost County revenues, allocate more funds to development, and decrease the personnel ratio.

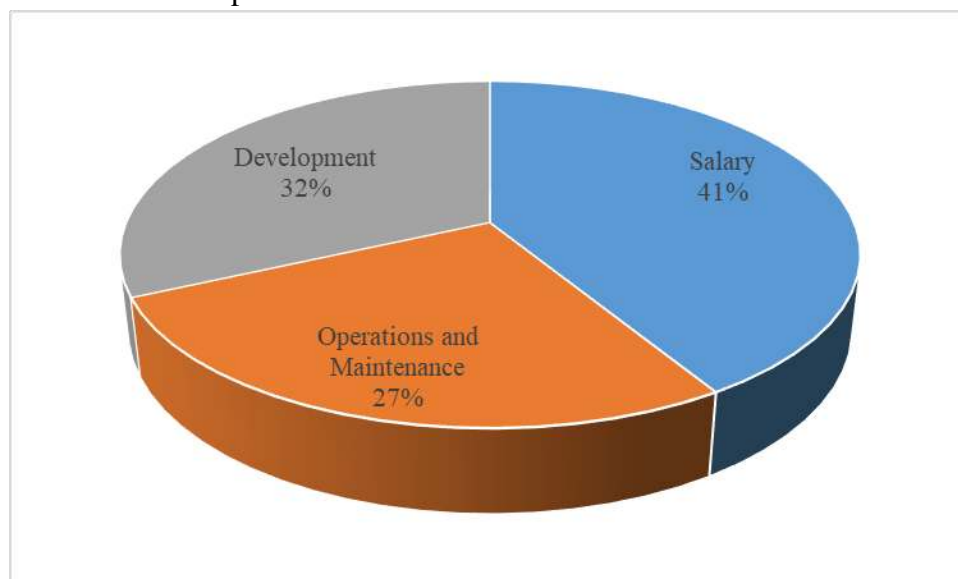

Figure 2: County Budget Allocation by Main Economic Classification

1.1.3. Receipts into the Makueni County Revenue Fund(CRF) for the first Nine Months of FY 2023/24

The County expected revenue for the year is Kshs. 11,170,315,259. This included, Kshs 8,455,460,962 as the equitable share, Kshs 1,240,000,000 as the OSR target, Kshs. 833,842,598 as conditional allocations, loans, and grants, and Kshs. 641,011,699 balances FY 2022/23. The overall revenue receipts for the period ended 31st March 2024 amounted to **Kshs. 6,533,307,816**, which represented 58 percent performance. County-generated revenue receipts accounted for a performance of 60 percent, while equitable share Allocations contributed to 58 percent performance. Receipts from conditional allocations, loans and grants amounted to Kshs 247,795,694 representing 30 percent.

Table 1: Summary of County Receipts as at 31st March 2024

No	Revenue Source	FY 2023/24 Revised Budget (1) Estimates	Performance as at March 31, 2024	Balance	Performance Rate (%)
1	Equitable Share	8,455,460,962	4,904,167,358	3,551,293,604	58%
2	Conditional Allocations, Loans and Grants	833,842,598	247,795,694	586,046,904	30%

Total		11,170,315,259	6,533,307,816	4,779,053,950	58%

1.1.4. Exchequer Issues from The National Treasury

According to the National equitable share distribution schedule, the County was expected to receive **Kshs. 6,299,318,406** for the first nine months of FY 2023/24. However, the County received disbursement for only seven months amounting to **Kshs. 4,904,167,358**.

1.2 Departmental Allocations

The Department of Health Services received the largest budget allocation of **Kshs, 4,116,541,053** accounting for 34 per cent of the total County Revenues. The Department of Agriculture, Irrigation, Livestock, Fisheries and Cooperative Development had the second highest allocation of **Kshs 1,179,261,113** which represented an allocation of 10 per cent. On the other hand, the County Attorney had the smallest allocation with **Kshs 49,023,507**.

The allocation across departments aligns with the County priorities outlined in the CIDP III. The significant allocation to Health Services is mainly due to factors such as a large workforce, recurrent budget for running health facilities, procurement of medical commodities (including drugs), as well as funding from donors for various health programs and infrastructure improvements.

2.0 REVENUE ANALYSIS

The FY 2023/24 Budget is funded from four main sources namely; Equitable share – **Kshs. 8,455,460,962**(76%), Own Source Revenue – **Kshs. 1,240,000,000** (11%), conditional allocations (loans and grants) – **Kshs. 833,842,598** (7%) and FY 2022/23 balances of **Kshs. 641,011,699**(6%). The overall revenue performance for the first nine months of the FY 2023/24 was 58 percent (**Kshs. 6,533,307,816**) which represents an increase Kshs **610** Million from Kshs 5,923 Million recorded in FY 2022/23.

The revenue performance increased by 3 percent from 55 percent recorded in FY 2022/23 third quarter to 58 percent in the third quarter of FY 2023/24. The performance of the main sources as a proportion of the total revenue of **Kshs 6,533 Million** was as follows; Equitable share **Kshs. 4,904 Million** (75 Percent), Own-Source Revenues **Kshs 740** (11 percent) and FY 2022/23 Reallocation Funds of **Kshs 641Millions** (10 Percent) and Conditional Allocations, Loans and Grants **Kshs 248 Million** (4 percent).

Figure 3: Analysis of FY 2023/23 Third Quarter Overall Revenue Performance

2.1 Local Revenue Collections

The County has over the years missed revenue targets on Own-Source Revenue principally due to inadequate data to assess revenue potential, weak enforcement for compliance as well as lack of requisite laws to facilitate enforcement, untapped potential of land based revenue, staff shortage as well as exogenous factors such as drought, political intrusion and negative impact of COVID - 19 pandemic. The performance of Own Source Revenue showed a growth of 104% from Kshs 180 Million in the second quarter of FY 2023/24 to Kshs 372 Million in the third quarter of FY 2023/24.

Figure 4: Own Source Revenue Performance for the First Nine Months, FY 2022/23 and 2023/24
Source: County Treasury

The local revenue realized in the first nine months of FY 2023/24 was Kshs 740 Million, which represents a 26% increase from Ksh 586 Million recorded during the same period in FY 2022/23. This increase was attributed to several factors, including unified billing and auto invoicing based on data from the County Business Census. Additionally, the automation of all OSR processes, the 100 days RRI initiative, and the timely provision of adequate resources for revenue mobilization have also played a significant role in increasing OSR.

2.2 Own Source Performance per Stream

The revenue collected up to the third quarter of FY 2023/24 was raised from 33 different revenue streams. The highest contributors to the Own Source Revenue streams were NHIF and Linda Mama Reimbursement, EDU Afya Fees, medical health services fees, single business permits/application fees, Makueni Fruit Processing Plant fees, and Sand Authority fees. Table 4 presents a comparison between the revenue performance up to the third quarters of FY 2022/23 and FY 2023/24.

During the first nine months of the FY 2023/24 the normal revenue streams increased by 34 percent from Kshs 264,231,575 in FY 2022/23 to Kshs 354,156,795 in FY 2023/24. Similarly,

the Appropriation in Aid (AiA) increased by 20 percent from Kshs 321,653,060 to Kshs 386,176,270 over the same period.

5.0. CHALLENGES, LESSONS LEARNT AND RECCOMENDATIONS

5.1 Challenges

The county faced various challenges in implementation of FY 2023/24 budget in the third quarter of the financial year. These are;

a) Delayed equitable share, loans and grants releases

The County received a disbursement equivalent to seven months instead of the anticipated nine months, as outlined in the National equitable share distribution schedule for the FY 2023/24. According to the schedule, Makueni County was expected to receive Kshs. 6,299,318,406 for the first nine months of the year. However, the County received a total of Kshs. 4,904,167,358 for the same duration.

b) Delayed finalization of Project designs

There were delays in undertaking project designs and feasibility studies. This was finalized within the third quarter and most of the projects have been procured and are at inception level.

c) Inadequate Human Resources

Inadequate human resources in key/technical areas leading to slowed project implementation. The County has however taken measures towards filling of the critical technical areas in collaboration with the County Public Service Board.

d) Protracted Heavy Rains

Extreme weather conditions have affected implementation plan schedules, project timelines, and the overall feasibility of certain initiatives. Destruction of infrastructure projects by flooding and breaching of earth dams led to a rise in displacements and destruction of the dams. This led to shifting of efforts towards disaster response delaying implementation of projects.

5.2 Lessons Learnt During Half Year Budget Implementation

The following are lessons learnt to be replicated in future planning and implementations:

- i) **Proper Project Conceptualization and Design:** There is need to ensure proper project concept notes are prepared before any project is funded in the budget. The concept notes will be the basis upon which departments will seek for funding. This is expected to address proper project costing and scoping.
- ii) **Resource mobilization:** The County needs to take advantage of the avenues provided by the Council of Governors to lobby for timely exchequer releases. Concerted efforts should also be enhanced towards one government approach in resource mobilization.

- iii) **Capacity Development of Human Resource:** Departments should enhance capacities of their human capital so as to increase their efficiency and productivity. Maintenance and adoption of employee training plans for all staff should be strictly followed and implemented. iv) **Partnerships and collaborations:** There is need for enhanced cooperation with the national government and development partners through frequent consultative meetings and technical support. This is expected to expedite implementation of jointly implemented programs.

5.3 Recommendations

For effective and efficient budget implementation, County Departments are entities should;

- i. **Fast Track Project Implementation:** Ensure timely execution of procurement preceding activities including feasibility studies, project designs, site identification, verification and cabinet paper preparation. Ensure strict adherence to work plans for the ongoing projects. These measures will minimize the extension of projects into subsequent financial years.
- ii. **Human Resource Planning and Capacity Building** -continue collaborative efforts with the County Public Service Board to address inadequate human resources in key technical areas. Prioritize capacity building for existing staff to enhance efficiency and productivity.
- iii. **Designing of Climate-Resilient Project:** Develop and implement strategies for climate-resilient projects. Consider the potential impact of extreme weather conditions on construction schedules and project feasibility, and plan accordingly.
- iv. **Resource Mobilization Collaboration:** Encourage collaborative efforts among all county government departments/entities to enhance resource mobilization. Joint endeavors, grants and partnerships can contribute to the successful delivery of socio-economic transformation projects.
- v. **Implementation of Performance-Based Budgeting:** Consider adopting a performance-based budgeting approach, linking funding to specific project goals and outcomes. This can enhance accountability and align financial resources with the desired results.
